Unit-II

2. Read the following passage carefully and answer the questions given at the end of the passage : <http://www.onlinebu.com>

A communication system provides the means by which information, coded in signal form can be transmitted as exchanged. Information can be defined as a collection of symbols that

when combined, communicates a message as intelligence. The combination of letter c-a-r is not just a collection of three letters. It represents the concept of a car or automobile. Next, the information system in the communication can be transmitted via a telephone line, satellite or other suitable communication channel or path. After it received, it can be decoded or converted back into original form. It can be transmitted, stored and manipulated.

Questions :

5

- (a) How can information be defined?
- (b) What does the combination of letters - c-a-r represent?
- (c) How can information in the communication system be transmitted?
- (d) What can be done after receiving communication?
- (e) Give suitable title to the passage.
